Take on the 21-Day #bewaterwise Challenge

W.A.T.E.R Project brings you the 21-Day #bewaterwise Challenge to help you save thousands of litres of water over a lifetime. Take it on and make water conservation a habit for a better future.

Let's go

1. Turn off the tap while brushing your teeth.
2. Take a 5-minute shower.
3. Place a water bottle in your flush tank to reduce water usage.
4. Only use your washing machine for full loads.
5. Use a soapy sponge when washing your dishes instead of running tap water.
6. Use a bowl of water to wash your fruits and vegetables.
7. Avoid defrosting frozen food with running water.
8. Turn off the tap while you lather your hands.
9. Save a splash and use a broom instead.
10. Save rainwater in a barrel and use it to wash your car or water your lawn.
11. Fix your leaks.
12. Reuse water used for cooking to water your plants.
13. Be a vegan today!
14. Share the #bewaterwise tips with 3 loved ones.
15. Water your plants in the morning to minimise evaporation.
16. Cease the grease! Minimise oil usage to reduce wastage that ends up in the drain.
17. Use your leftover ice cubes to water a plant.
18. Install a shut-off nozzle for your outdoor hose.
19. Install water-saving shower heads.
20. Cut RM10 off your water bill next month.
21. Like the GAB Foundation Facebook page & get unlimited water conservation tips all year round.

Congratulations!

YOU ARE NOW WATER WISE.
